

Medication management is a long-term treatment program that involves the management and ongoing determination of a medication's effectiveness. Beckett Springs provides medication management services for existing patients who are actively enrolled in IOP, patients stepping down from inpatient treatment or partial hospitalization and new patients.

PAYMENT & INSURANCE

All payments, including co-pays, are due at the time of service. Insurance information will be collected prior to your appointment, and then file the claim with your insurance company. Co-pays, co-insurance and/or deductibles are determined by your insurance plan. If you choose not to use your insurance, you are responsible for paying the self-pay rate at the time of service.

Appointments can be made at the front desk of Outpatient Services, or by calling **513.942.9500**.

Any appointment missed, canceled, or changed without 48 hour notice will result in a \$20 charge. This fee is your responsibility and may not be reimbursable by your insurance company. Always check in advance of your scheduled appointment to confirm a refill of your medication is needed. The medical provider may approve prescription refills requested by phone based on clinical factors. Please note this process takes a minimum of two business days.

Call or walk in 24/7, for an assessment to begin your recovery journey

Beckett Springs

There's hope. There's help.®
